

# ICCEXPO

ISTANBUL COLD CHAIN, TECHNOLOGIES, MATERIALS AND SUPPLIERS EXHIBITION

## 26 - 27 - 28 NOVEMBER 2026

### ISTANBUL EXPO CENTER (IFM)

*Powering the Cold Chain Ecosystem*

Bringing together software, equipment, and supply solutions  
powering the cold chain logistics industry.

#### **Equipment & Infrastructure**

- Cold storage & refrigeration systems
- Warehouse automation solutions
- Handling & transport equipment

#### **Software & Digital Solutions**

- Logistics & warehouse management systems
- IoT tracking & monitoring technologies
- Data analytics & optimization tools

#### **Supply & Materials**

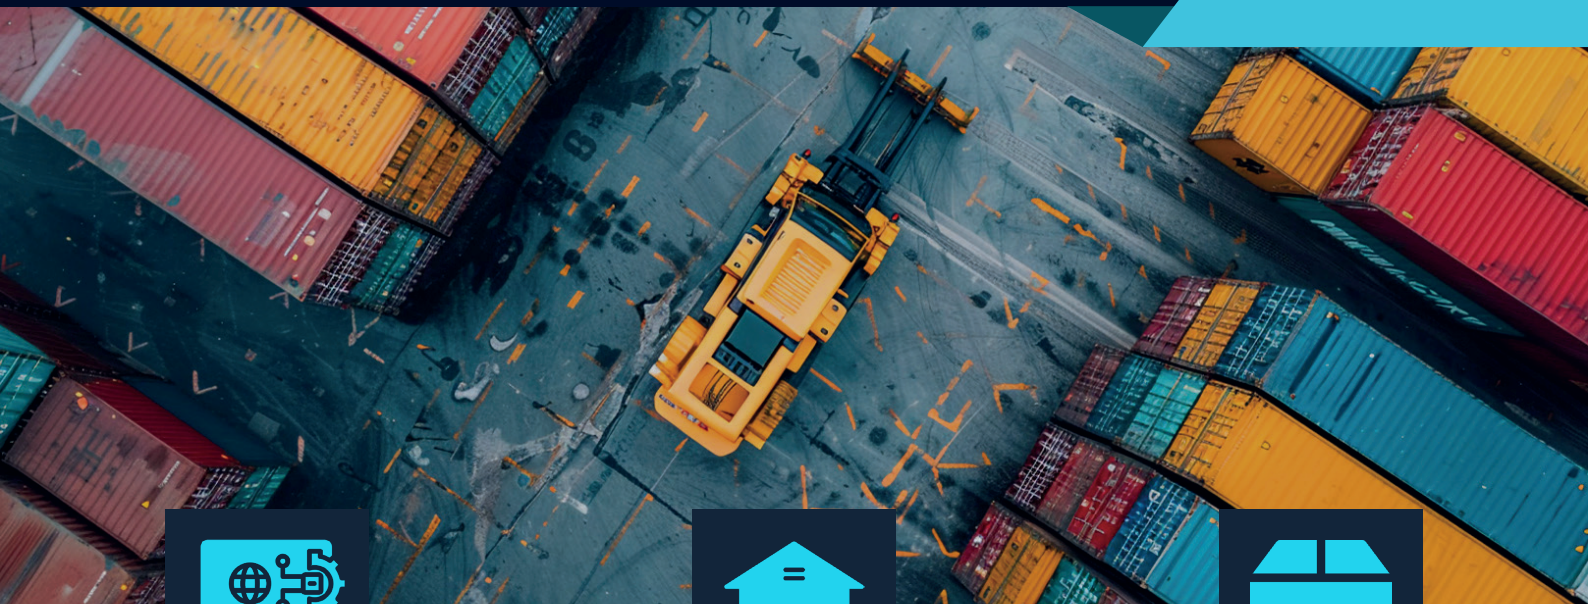

- Thermal packaging solutions
- Insulation & cooling materials
- Components & operational supplies

# Driving the Cold Chain Supply Ecosystem

The cold chain industry is evolving rapidly with increasing demand for efficiency, traceability, and integrated solutions.

This platform connects the key players shaping the future of logistics supply ecosystems.

## Software & Digital Systems

- WMS, logistics platforms
- IoT tracking & monitoring
- Data & performance analytics

## Equipment & Infrastructure

- Refrigeration technologies
- Cold storage systems
- Automation & handling solutions

## Supply & Materials

- Thermal packaging
- Insulation solutions
- Components & consumables

## WHO SHOULD JOIN?

- Technology & software providers
- Equipment manufacturers
- Material & packaging suppliers
- Logistics & distribution companies

## WHY PARTICIPATE?

- Access a rapidly growing global market
- Showcase your solutions to key industry buyers
- Connect with decision-makers across supply chains
- Build strategic partnerships and collaborations
